

Maintain Up to Date Problem List

Maintain an up-to-date list of current and active diagnoses for more than 80% of patients.

How to meet this measure using ONCOCHART –

You can achieve this one of two ways:

1. ONCOCHART will automatically add the patient's diagnosis information to the problem list upon the completion of staging.
2. You can add additional diagnoses under *Demographics > Information Center > Problem List*. Click the green arrow and choose *Add Problem*.
