

## Record Vital Sign

Record the height, weight, blood pressure and BMI for more than 50% of your unique patients 3 years or older.

**How to meet this measure using ONCOCHART** - The vital sign questions are located in *Exam* tab under *Constitutional* group of the INI and FUE.

The screenshot shows the 'Constitutional, PE' tab in the ONCOCHART interface. The following fields are highlighted with red boxes:

- \*Gen Eval Constitu
- \*Status
- \*Systolic BP Sitting: 135
- \*Diastolic BP Sitting: 79
- \*Body Mass Index: 27.0
- \*Systolic BP Standing
- \*Diastolic BP Standing
- \*Weight lbs.: 199
- \*Height, Inches: 72
- \*Temp F: 96.6
- \*Temp C

Plot and display growth charts for patients 0-20 years. You can display a growth chart for patient 0-20 by going to *Clinical > Prognostics > Choosing a weight OR a height* then checking *Display Growth Chart*.
