

### Preventative Care (Patient reminders)

Provide more than 20% of unique patients age 65 years or older or 5 years old or younger a reminder for preventative/follow-up care based on the patient's preference.

You can set each patient's contact preference under *Contact Info* in the patient navigator.

#### How to meet this measure using ONCOCHART -

You can add patient reminders to ONCOCHART by going to *Utilities > Patients > Patient Reminders*. Click *Add Reminder*, select your *Patient*, select your *Reminder Type\**, select the date on which you want to remind the patient, enter any reminder notes and choose *save*.

The screenshot shows a web-based form titled "ADD/EDIT PATIENT REMINDER". The form contains the following fields and controls:

- Selected Patient:** A text input field containing "B07-PATIENT-5.1, CDA" and a "Select Patient" button.
- Reminder Type:** A dropdown menu set to "Follow-up Visit" and a "Manage Types" button.
- Reminder Date:** A date picker set to "4/30/2015".
- Recurrence Days:** A spinner control set to "0".
- Mark as completed:** A checkbox that is currently unchecked.
- Notes:** A text area containing the text "Call and remind to come in for follow-up."
- Buttons:** "Save" and "Cancel" buttons at the bottom.

If you've set the patient's contact preference and added the specific contact information to the chart, it will appear in the reminder module. This will save you time by your not having to look up the contact information in the patient chart.

Once you remind the patient, check the reminder completed box. *Contact ONCOCHART support if you need help implementing this functionality.*

**PATIENT REMINDER QUEUE**

Patient Name	Contact Preference	Date	Completed	Reminder Type	Center
C01-PATIENT-2, CQM	Phone	4/23/2015	<input type="checkbox"/>	Preventative Care	NIST
B07-PATIENT-5.1, CDA	Phone	4/30/2015	<input type="checkbox"/>	Follow-up Visit	NIST
