

Use Secure Electronic Messaging

A secure message was sent using the electronic messaging function of CEHRT by more than 5% of unique patients (or their authorized representatives) seen by the EP during the EHR reporting period.

You must be subscribed to the patient portal to meet this measure. *Contact ONCOCHART support for more information regarding the patient portal.*

How to meet this measure using ONCOCHART –

Walk your patients through the process of sending a secure message, to his/her radiation oncologist, from the patient portal. Tell them this will be used as a test for the messaging system.

Ask the patient to log into the patient portal at <https://patient.oncochart.com>

Click on *Secure Mail*

Click *Compose*

If not already populated, have the patient choose the radiation oncologist from the drop down.

Fill in a subject, type a message then click *Send Email*.

A screenshot of a patient portal interface for sending a secure message. At the top is a navigation bar with tabs: "Home" (highlighted in blue), "Health Inf...", "History", "Secure Mail", and "Sharing". Below the tabs, the form has three main sections. The first section is labeled "*To:" and contains a dropdown menu with "BOGARDUS, CARL, MD" selected. The second section is labeled "Subject:" and contains a text input field with "Test Message". The third section is labeled "*Message:" and contains a larger text input field with the text "This is a test of the patient portal messaging system." At the bottom of the form is a large grey button labeled "Send Email", which is highlighted with a red rectangular border.
