

Patient Specific Education Resource

Patient-specific education resources identified by Certified EHR Technology are provided to patients for more than 10% of all unique patients with office visits seen by the EP during the EHR reporting period.

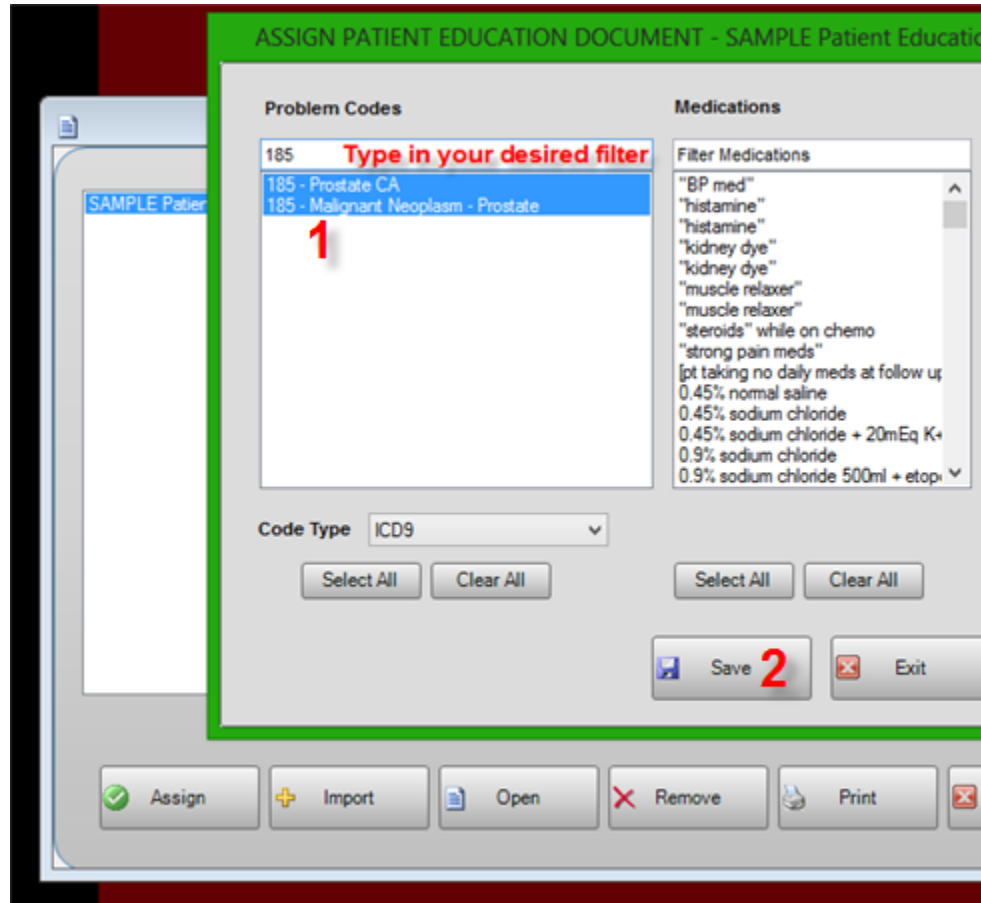

How to meet this measure using ONCOCHART -

Go to *Utilities > Patients > Patient Education Forms*.

- Import your patient education documents into ONCOCHART by using the *Import* button.
- Navigate to the location of your document(s), select them, and then click *Open*. (You can select multiple documents by holding Ctrl and selecting the documents.)

- Click *Assign*, search for a problem code or medication based on ICD-9 or name.
- Select your code(s) or medication(s) then click *Save*.

Any patient that meets the specified criteria you chose will have the education documents located under *Miscellaneous > Pt Specific Education*. In order to receive credit, in ONCOCHART, for providing the education resource, you will have to open or print the document. Once the document has been opened or printed, the date on which you provided the document will auto populate.

Document Name	Printed	Hidden	Provided	Uploaded
foods permitted.pdf	<input type="checkbox"/>	<input type="checkbox"/>	6/3/2014	<input checked="" type="checkbox"/>
foods to avoid.pdf	<input type="checkbox"/>	<input type="checkbox"/>	6/3/2014	<input checked="" type="checkbox"/>
SAMPLE Patient Education Document for Prostate Patients.pdf	<input type="checkbox"/>	<input type="checkbox"/>	6/3/2014	<input checked="" type="checkbox"/>

The patient portal can also help you meet this measure as ONCOCHART will automatically send any education document(s) to patients who have authorized you to send them health information. *Contact ONCOCHART support for more information regarding the patient portal.*

Additional Information

The EP may use these elements or additional elements within CEHRT to identify educational resources specific to patients' needs. The EP can then provide these educational resources to patients in a useful format for the patient (such as, electronic copy, printed copy, electronic link to source materials, through a patient portal or PHR).
