

Patient Electronic Access

Provide patients the ability to view online, download, and transmit their health information within 4 business days of the information being available to the EP.

You must be subscribed to the patient portal to meet this measure. *Contact ONCOCHART support for more information regarding the patient portal.*

How to meet this measure using ONCOCHART -

Measure 1: Provide patients electronic access to his/her patient information. You can achieve this by *registering* more than 50% of your patients for the patient portal.*

You can register a patient for the patient portal by clicking on Demographics > Patient Portal > Filling in the patient's email address > Click Enroll. You'll receive a confirmation if the enrollment is successful.

The screenshot displays the ONCOCHART Patient Portal enrollment interface. On the left, a navigation menu lists various options, with 'Patient Portal' highlighted and marked with a red '1'. The main content area shows a form for entering patient information. The 'Email Address' field is highlighted with a red '2' and contains the text 'PatientEmail@EmailAddress.com'. Below this, there are fields for 'Narrative Reports', 'CCD', 'CCR', 'CDA', and 'EMR Files', all showing '0'. The 'EMR Files' field is marked with a red '3'. At the bottom, there are buttons for 'Re-Enroll', 'Enroll', 'Email Report', 'Print', 'Synchronize Records', and 'Exit'. At the top of the form, there are checkboxes for 'Authorization Completed' and 'Patient Declined'.

* HealthVault has no bearing on MU 2014 and beyond. You'll need to enroll your HealthVault patients in the patient portal in order for them to be included in the calculator's numerators and denominators.

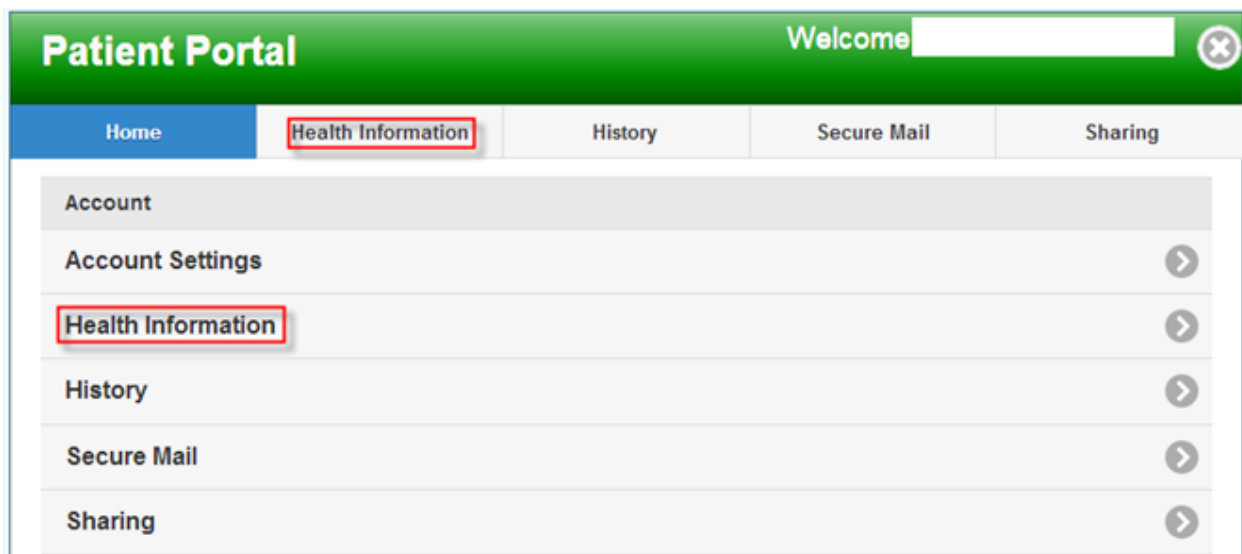

Measure 2: More than 5% of all unique patients seen by the EP during the EHR reporting period view, download, or transmit to a third party their health information.

More than 5% of your patients need to log into the patient portal and view or download some of their health information.

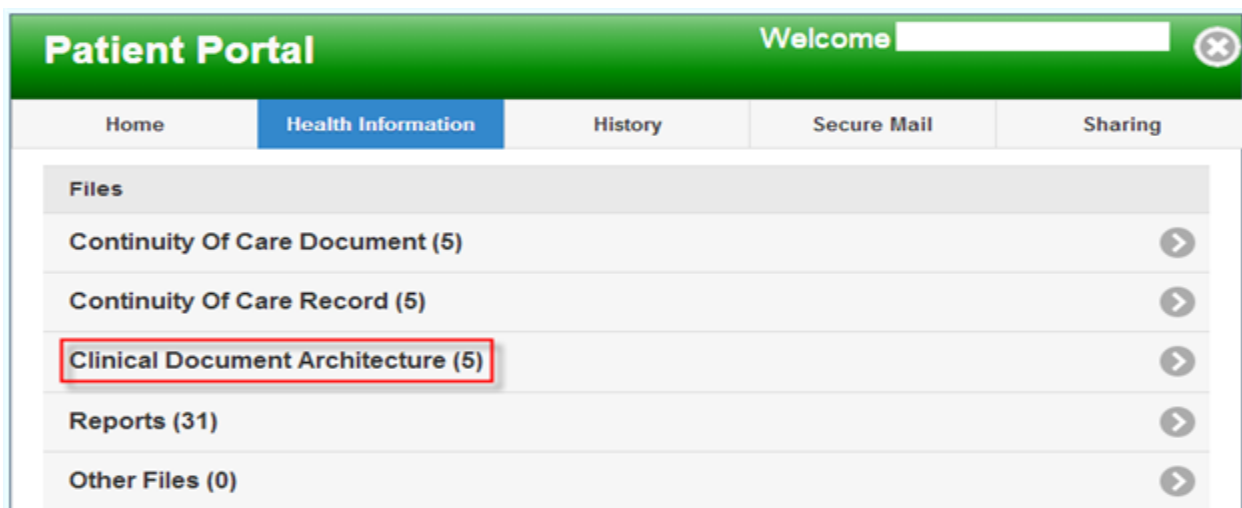

How to meet this measure using ONCOCHART -

Instruct your patient to log into the patient portal at <https://patient.oncochart.com>

If you want the patient to download the Clinical Document Architecture, instruct the patient to hover over *Options > Click Download> Click Human Readable*.

The screenshot shows the 'Patient Portal' header with a green background and the text 'Welcome PORTAL PATIENT' and a close button. Below the header is a navigation bar with links: 'Home', 'Health Informati...', 'History', 'Secure Mail', and 'Sharing'. The 'Options' menu is open, showing a list of items: 'Email', 'Download', 'Human Readable', 'Date of birth', 'Race', 'XML', 'Sex', and 'Ethnicity'. The 'Download' button is highlighted with a red box, and the 'Human Readable' option is also highlighted with a red box. The 'Date of birth' and 'Race' fields are also visible, with 'Date of birth' showing '11/11/1980' and 'Race' showing 'White'. The 'Sex' field shows 'Male' and the 'Ethnicity' field shows 'Not Hispanic or Latino'.
