

Record Demographics

Record the following demographics: race, ethnicity, preferred language, gender (sex), and date of birth for more than 80% of your unique patients.

How to meet this measure using ONCOCHART - All of this information can be found on the demographics page of the patient navigator. Race, ethnicity, and preferred language can also be found on the *Exam* tab under *Constitutional* group of the INI and FUE.

You can make these fields required in the demographics form by going to *Administration > General Maintenance > Miscellaneous > Required Fields*.

The screenshot shows a patient demographics form with the following fields and values:
