

### Preventative Care (Patient reminders)

More than 10% of all unique patients who have had 2 or more office visits with the EP within 24 months before the beginning of the EHR reporting period were sent a reminder, per patient preference when available.

In simpler form, CMS wants you to complete a reminder, during your reporting period, for the patients that you have seen for an office visit twice at your facility in the last 2 years leading up to the beginning of your reporting period.

You can set each patient's contact preference under *Contact Info* in the patient navigator.

#### How to meet this measure using ONCOCHART -

You can add patient reminders to ONCOCHART by going to *Utilities > Patients > Patient Reminders*. Click *Add Reminder*, select your *Patient*, select your *Reminder Type\**, select the date on which you want to remind the patient, enter any reminder notes and choose *save*.

**ADD/EDIT PATIENT REMINDER**

**Selected Patient**  
B07-PATENT-5.1, CDA

**Reminder Type**  
Follow-up Visit

**Reminder Date**  **Recurrence Days**

Mark as completed

**Notes**  
Call and remind to come in for follow-up.

If you've set the patient's contact preference and added the specific contact information to the chart, it will appear in the reminder module. This will save you time by your not having to look up the contact information in the patient chart

Once you remind the patient, check the reminder completed box.

**PATIENT REMINDER QUEUE**

Patient Name	Contact Preference	Date	Completed	Reminder Type	Center
C01-PATIENT-2, CQM	Phone	4/23/2015	<input type="checkbox"/>	Preventative Care	NIST
B07-PATIENT-5.1, CDA	Phone	4/30/2015	<input type="checkbox"/>	Follow-up Visit	NIST

**Reminder Properties**

Reminder Type: Follow-up Visit

Days Recurring:  Current Recurrence:

Reminder Note: Call and remind to come in for follow-up.

Min Date:  Max Date:   Show Completed Reminders

\*If you don't have any reminder types in your drop down, click *Manage Types* then add them.

The screenshot displays two side-by-side windows from the ONCOCHART software. The left window, titled "ADD/EDIT PATIENT REMINDER", contains fields for "Selected Patient" (C01-PATIENT-2, CQM), "Reminder Type" (Preventative Care), "Reminder Date" (4/23/2015), and "Recurrence Days" (0). A red arrow points to the "Manage Types" button next to the Reminder Type dropdown. Below these fields are checkboxes for "Mark as completed" and a "Notes" text area containing "Please come in for your preventatie care." At the bottom are "Save" and "Cancel" buttons. The right window, titled "PATIENT REMINDER TYPE MAINTENANCE", shows a list of reminder types: Allergy Reminder, Amox Reminder, Follow-up Visit, Patient Reminder, and Preventative Care. The "Preventative Care" item is highlighted in blue. Below the list is a "Reminder Type" dropdown menu also containing "Preventative Care". A red arrow points to the "Add" button in the bottom toolbar, which also includes "Edit", "Delete", and "Exit" buttons.
