

Immunization Registries Data Submission (public health)

Participate in successful ongoing submission of electronic immunization data from CEHRT to an immunization registry or immunization information system for the entire EHR reporting period.

Since most of the practices using ONCOCHART are radiation oncology practices, you may be excluded from meeting this measure based on the following CMS exclusion: *The EP does not administer any of the immunizations to any of the populations for which data is collected by their jurisdiction's immunization registry or immunization information system during the EHR reporting period.*

According to CMS, providers should contact their local or state public health agency for information and instructions on submitting public health related data to satisfy the Meaningful Use measures (See CMS FAQ #3605 <https://questions.cms.gov/faq.php?id=5005&faqId=3605>).

Contact your local or state public health agencies regarding submitting immunization data for MU. If it is determined that you're in a category of physicians who should submit this information, contact ONCOCHART Support and inform us that you would like to meet this measure. We'll need to setup an immunization interface.

How to meet this measure using ONCOCHART –

Navigate to Clinical > Nursing

Create *New Narrative*

Click *INJ*

On the Groups tab, select *Immunization* and *Administration*

The screenshot shows a web interface for a medical system. At the top, there's a header with '000-00-0025 CENTER: NIST M'. Below this, there are two tabs: 'Information Center' and 'Demogr'. Under 'Demogr', there are two sub-tabs: 'Demographics' and 'Med. Injections'. The 'Med. Injections' tab is active. Below the tabs, there is a vertical list of buttons: 'Inj Diagnosis', 'Lab Report', 'Immunization', 'Medication', 'Administration', 'Vital Signs', 'Instructions', and 'Comments'. The 'Immunization' and 'Administration' buttons are highlighted in blue, indicating they are selected or active.

Fill out the narrative similar to the example below. *(Actual data will depend on your patient's needs)*

Fill out any applicable information on the Immunization Registry tab, also.

Record this narrative. Once the narrative is recorded, an immunization HL7 message will be created.
