

Health Information Exchange (Transition of Care Summary)

Measure 1: The EP, who transitions or refers their patient to another setting of care or provider of care, should provide a summary of care record for each transitions of care or referral.

Measure 2: The EP, who transitions or refers their patient to another setting of care or provider of care, must electronically transmit such summary to a receiving provider for more than 10% of transitions of care or referrals.

How to meet this measure using ONCOCHART -

You can get credit for providing a summary record by using one of the following methods.

- **Measure 1** – After answering YES to the Transitioned question in the INI, FUE and EOT, answer **NO** to the pop-up. You'll also need to answer the *Released Explanation* question. If you choose to use this method, you will not be required to use the patient portal method or print the transition of care record for *MU calculation purposes*, **but you will be responsible for providing the patient with a transition of care summary**.

Demographics | Procedure | Case Hist | Refl Hist | SUD Hist | History/Notes

Transition of Care Su...

Transitioned?

No release explanation

Released explanation

- Flash drive to patient
- CD to patient
- Printed to patient
- Printed to family physician
- Printed to referring physician
- PDF to family physician
- PDF to referring physician
- Elect to EMR family physician
- Elect to EMR requesting physician
- Elect to EMR hospital
- Elect to Health Vault

You can manually generate a summary of care record by going to *EMR > Continuity of Care > Clinical Document Architecture*

- You can decline printing the transition of care summary and not answer the *Released Explanation* question and still get credit in the MU calculator **if the patient has authorized you to send health information to his/her patient portal or if you decide to print the summary at a later time**. Contact ONCOCHART support for more information regarding the patient portal.
- **Measure 2** – Provider may claim an exclusion for the Stage 2 measure that requires the electronic transmission of a summary of care document if for an EHR reporting period in 2015, they were scheduled to demonstrate Stage, which does not have an equivalent measure.

Exclusions for the Health Information Exchange measure.

Any EP who transfers a patient to another setting or refers a patient to another provider less than 100 times during the EHR reporting period is excluded from **both measures**.
