

Patient Specific Education Resource

Patient-specific education resources identified by Certified EHR Technology are provided to patients for more than 10% of all unique patients with office visits seen by the EP during the EHR reporting period.

How to meet this measure using ONCOCHART -

Provider may claim an exclusion for the measure of the Stage 2 Patient Specific Education objective if for an EHR reporting period in 2015 they were scheduled to demonstrate Stage 1 but did not intend to select the Stage 1 Patient Specific Education menu objective.

Additional Information

The EP may use these elements or additional elements within CEHRT to identify educational resources specific to patients' needs. The EP can then provide these educational resources to patients in a useful format for the patient (such as, electronic copy, printed copy, electronic link to source materials, through a patient portal or PHR).
