

### Patient Electronic Access

Provide patients online access to their health information within 4 business days of the information being available to the EP.

You must be subscribed to the patient portal to meet this measure. *Contact ONCOCHART support for more information regarding the patient portal.*

#### How to meet this measure using ONCOCHART -

**Measure 1: Provide patients electronic access to his/her patient information.** You can achieve this by *registering* more than 50% of your patients for the patient portal.

You can register a patient for the patient portal by clicking on Demographics > Patient Portal > Filling in the patient's email address > Click Enroll. You'll receive a confirmation if the enrollment is successful.

The screenshot shows the ONCOCHART interface for patient portal enrollment. On the left is a navigation menu with categories: Demographics, Clinical, and ePrescribe. Under Demographics, 'Patient Portal' is selected and marked with a red '1'. The main area shows a form with the following elements:

- Checkboxes:  Authorization Completed,  Patient Declined
- Section: Portal Information:
- Text field: Email Address: PatientEmail@EmailAddress.com (marked with a red '2')
- Summary statistics:
  - Narrative Reports: 0
  - CCD: 0
  - CCR: 0
  - CDA: 0
  - EMR Files: 0 (marked with a red '3')
- Buttons: Re-Enroll, Enroll, Email Report, Print, Synchronize Records, Exit

**Measure 2: At least one patient seen by the EP during the EHR reporting period views, downloads, or transmits to a third party their health information during the EHR reporting period.**

Only one of your patients needs to log into the patient portal and view or download some of their health information.

**How to meet this measure using ONCOCHART -**

Providers may claim an exclusion for the second measure if for an EHR reporting period in 2015 they were scheduled to demonstrate Stage 1, which does not have an equivalent measure.
