

Public Health Reporting - Immunization Registries Data Submission

Participate in successful ongoing submission of electronic immunization data from CEHRT to an immunization registry or immunization information system for the entire EHR reporting period.

According to CMS, providers should contact their local or state public health agency for information and instructions on submitting public health related data to satisfy the Meaningful Use measures (See CMS FAQ #3605 <https://questions.cms.gov/faq.php?id=5005&faqId=3605>).

Contact your local or state public health agencies regarding submitting immunization data for MU. If it is determined that you're in a category of physicians who should submit this information, contact ONCOCHART Support and inform us that you would like to meet this measure. We'll need to setup an immunization interface.

How to meet this measure using ONCOCHART –

Navigate to Clinical > Nursing

Create *New Narrative*

Click *INJ*

On the Groups tab, select *Immunization* and *Administration*

The screenshot shows a software interface with a header area containing patient information: ': 000-00-0025 CENTER: NIST M'. Below the header are two tabs: 'Information Center' and 'Demogra'. Underneath, there are two sub-tabs: 'Demographics' and 'Med. Injections'. A vertical list of buttons is displayed below these tabs. The buttons are: 'Inj Diagnosis', 'Lab Report', 'Immunization' (highlighted in blue), 'Medication', 'Administration' (highlighted in blue), 'Vital Signs', 'Instructions', and 'Comments'.

Fill out the narrative similar to the example below. (*Actual data will depend on your patient's needs*)

Fill out any applicable information on the Immunization Registry tab, also.

Record this narrative. Once the narrative is recorded, an immunization HL7 message will be created.
