

Health Information Exchange

Measure: The MIPS eligible clinician that transitions or refers their patient to another setting of care or health care clinician (1) uses CEHRT to create a summary of care record; and (2) electronically transmits such summary to a receiving health care clinician for at least one transition of care or referral.

How to meet this measure using ONCOCHART

Sign up for the patient portal which gives you access to secure email capabilities.

After answering **YES** to the Transitioned question in the INI, FUE or EOT, click the Email option.

The screenshot shows the ONCOCHART interface. At the top, there are tabs for 'Demographics', 'Calendar', and 'EM - EOT - 6/17/2014'. Below these are more tabs: 'Demographics', 'General Information', 'Dose Schedule', 'Primary TX Area', 'Tumor Response', 'Tx Reaction', 'Secondary TX #1', 'Secondary TX #2', and 'Secondary TX #3'. A sub-section contains 'Meds/Allergies', 'Transition', 'Clinical Comments', and 'Attachments'. The main content area is titled 'Transition of Care Su...'. It has three dropdown menus: 'Transitioned?' with 'Yes' selected (indicated by a red arrow), 'No release explanation', and 'Released explanation'. To the right, an 'ONCOCHART Message' dialog box is open, asking 'Would you like to email or print a Transfer of Care Summary Document to the requesting physician? This is required for Meaningful Use.' It has three buttons: 'Print', 'Email' (indicated by a red arrow), and 'Cancel'.

Input the email address of the requesting physician. Click **Send**. **The requesting physician MUST have a Direct compatible email address**, or sending of the email will fail and not reach him/her.*

The screenshot shows the 'ONCOCHART Message' dialog box. It contains the text 'Enter the Direct compatible secure email address of the recipient:'. Below this is a text input field containing 'RequestingPhysicianEmail@email.com'. At the bottom, there are two buttons: 'Send' with a green checkmark icon and 'Cancel' with a red 'X' icon.

Notes

Summary of care record is also known as a Clinical Document Architecture (CDA).

*You can obtain your direct email address by going to Administration > General Maintenance > Patient Portal.

Contact the recipient to verify they have a direct compatible address.
